

The background of the entire page is a close-up photograph of various blue and brass-colored vacuum components. These include bellows, flanges, and threaded ports. A prominent rainbow-colored hose or cable curves across the upper half of the image. In the top left corner, there is a white circular logo with a diagonal line through it, containing the text "ALL VAC".

ALL VAC

Specializing
in vacuum cups
since 1972

All-Vac Industries, Inc.

Made in the USA

All-Vac Vacuum Cups

All-Vac Industries, Inc. is a world leader in supplying vacuum cups of various shapes, sizes and materials – and has been since 1972. Our cups are used for a wide variety of applications, including pick-and-place, label application, packaging, materials handling, and more. Whether short or long production runs, for custom or standard designs, we offer short turnaround times. We can quote custom cups from supplied drawings or reverse engineer from customer-supplied cups.

The following pages show a sampling of our more popular cups – listed by type. If you do not see what you need here, please check our full product line which is available online at www.allvacind.com.

	Height	1.17" (30mm)
	Mtg Hole	3/8 NPT
		5/16-18 2 Places

We are All-Vac Industries, and our vacuum suction cups are mounted on the finest automated machinery throughout the world. We don't simply move your products; we move your business forward™.

You will find us on your packaging machinery, whether for food, healthcare or consumer products, placing items into containers, opening bags for filling, applying labels, erecting folding cartons and placing cases on pallets.

We are there on your printing presses, collators, inserters, and mailroom machines feeding paper stock, coupons and leaflets.

We are there in your pressroom, feeding sheetmetal into a press and transferring blanks to trimming and washing stations.

All-Vac ships daily from our Chicago area location. Call us or send an email and we will work with you to find the perfect cup.
